● Register SameMovie VideoOne for Mac

Purchase SameMovie VideoOne for Mac

SameMovie offers three subscription plans: Monthly, Yearly, and Lifetime plans.

To purchase a license key for VideoOne for Mac, please visit here.

1. Why should I buy SameMovie VideoOne?

SameMovie VideoOne is a shareware, and the trial version only allows you to download the first 5 minutes of each video in HD quality. To get the full video, please purchase a license. After the purchase, you will be provided with your Registration Email and Registration key which will unlock the trial version limitation.

2. What denefits do I have after registration?

    - Unlimited use during the subscription period without any function restrictions.

    - FREE upgrades to the latest versions of the same product.
    - FREE technical support.

Register SameMovie VideoOne for Mac

Step 1: Run SameMovie VideoOne on a Mac. First you should click the **Menu** icon and then select the **Register** option to register your program or the **Key** icon on the upper right.

Step 2: Please fill in the blanks with the **Registration Email** and **Registration Code**. You can use keyboard shortcuts to copy (Command+C) and paste (Command+V) your license in the registration window.

Step 3: After finishing the Registration, the limitation of the trial version will be removed

Notice:

1. Your computer should be connected with the Internet.

2. Make sure both the Registration Email and Registration key are provided by our company after you pay

the registration fee. If you have not paid, please click **Buy Now** to purchase.

3. Please make sure Registration Email and Registration key you entered are both completely and correctly,if

not, an error message will pop up as below:

## Installation & Interface

- Installation

- Main Interface

- Menu

Installation

To install this product, please refer to the following steps:

1. Download the latest version of SameMovie VideoOne through Download Center.
2. Double-click the installation package of VideoOne for Mac to start installing the program on your computer. Then simply drag the SameMovie application's icon to your Applications folder.
3. After installing, you can double-click SameMovie icon to launch the program.
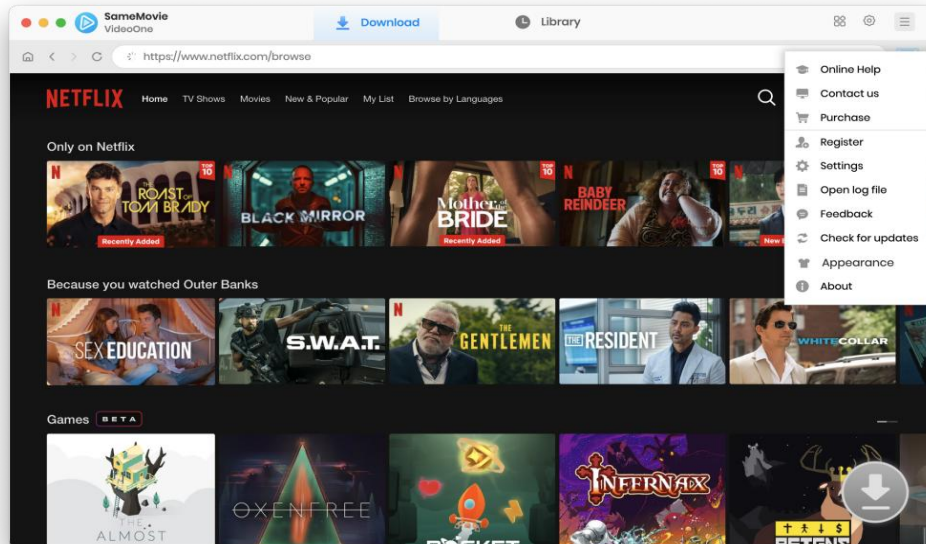

Main Interface

Launch SameMovie VideoOne for Mac and you will see the main interface as below. Simply choose a website to download, and if you want to change another site later, click the Switch-website icon in the upper right corner consisting of four small squares.

Menu

Click the **Menu** icon on the upper-right corner, and you will see a dialogue as below:
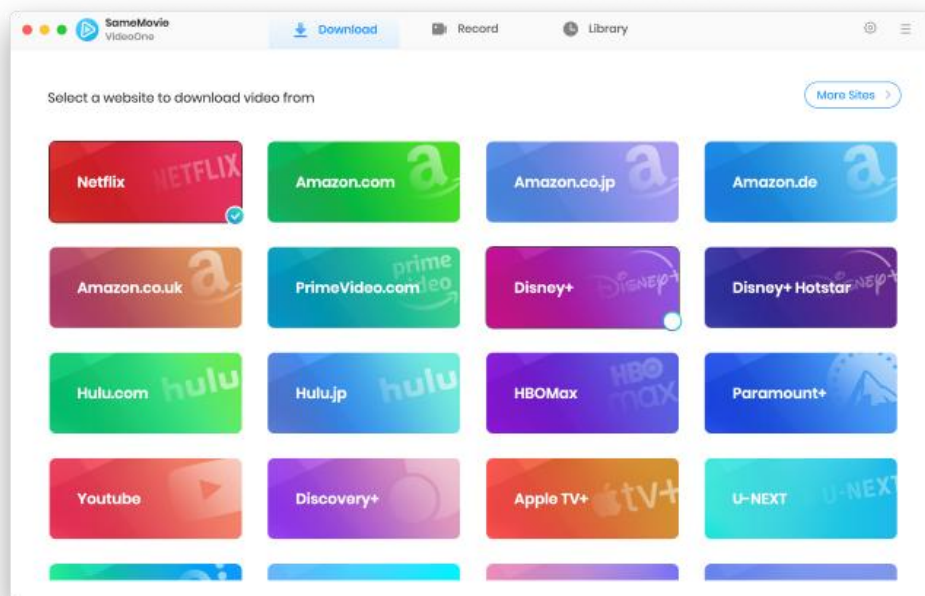

Tutorials

- Select Website

- Log into Account

- Customize Output Settings

- Search for Target Video

- Select Advanced Download Settings

- Download Video Locally
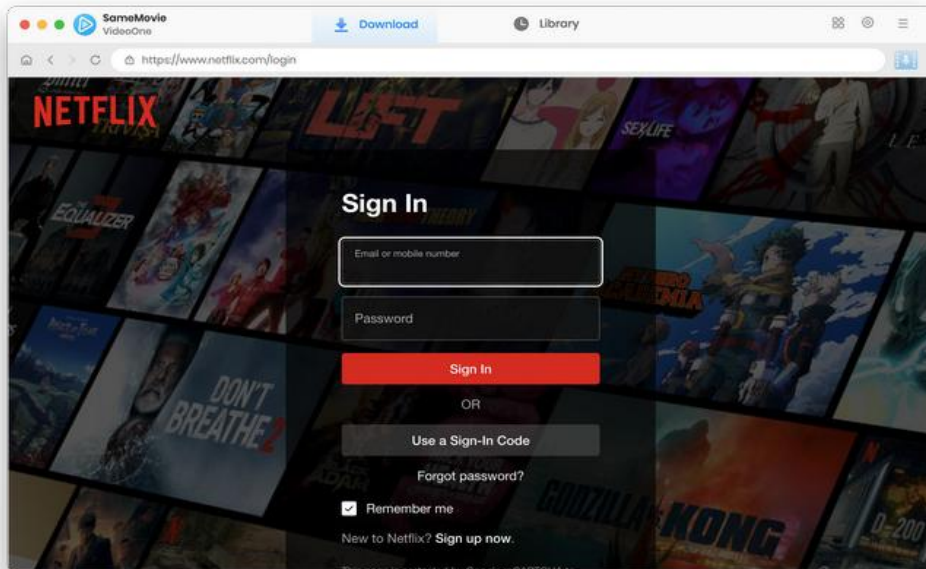

- Check Download History

Step 1: Select Website

Launch SameMovie VideoOne on your Mac. The first time you use it, you need to choose a platform. After that VideoOne will restart to respond to your request. Below we take Netflix as example.

Step 2: Log into Account

Now you need to follow the prompts to log into your Netflix account.

Step 3: Customize Output Settings

Click the **"Settings"** icon in the top-right corner. In the window, you can configure essential options: video format (MP4 or MKV), video quality , audio and subtitle language, output folder, and the subtitle format. Additionally, you have the option to save the 5.1 surround sound audio track if required. Plus, there are three kinds of subtitle format available:

- Internal subtitles: Multi-language subtitles will be saved in the same file as the video track.
- External subtitles: Save multiple language subtitles as separate files in SRT or VTT format.
- Hardcode subtitles: Permanently embedded into the video and subtitles are always available.

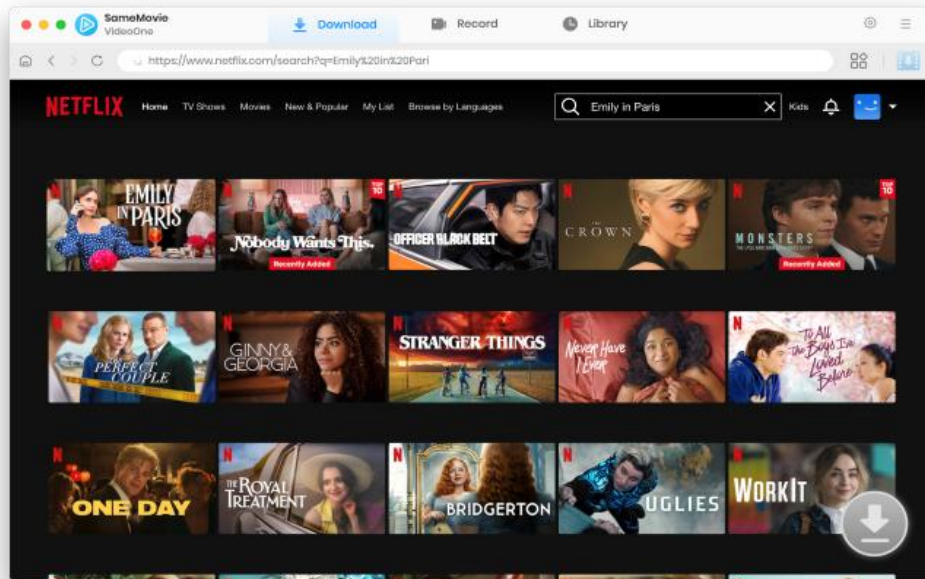

When you click the "Advanced" tab, you can choose two video codecs: H.264 and H.265. For less storage space, it's recommended to select H.265 as the video codec. You can also turn on hardware acceleration so that the download speed will be improved.

Step 4: Search for Target Video

Simply use the search box in the upper right corner to locate the video you're looking for. Alternatively, find a video by browsing the built-in web player.
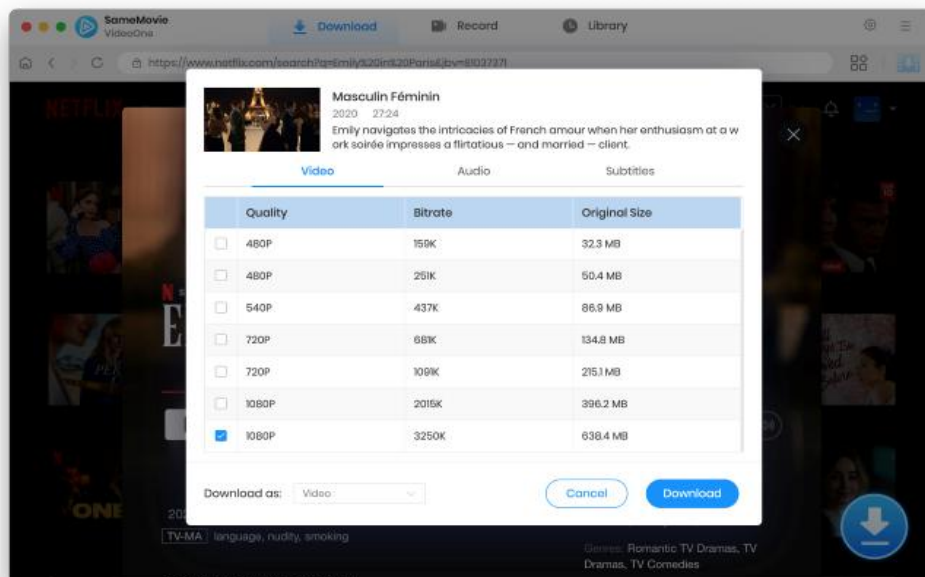

Step 5: Select Advanced Download Settings

Open the video's detail page or play the video. In both cases, you can find that the arrow icon at the bottom right corner will change from gray to blue.

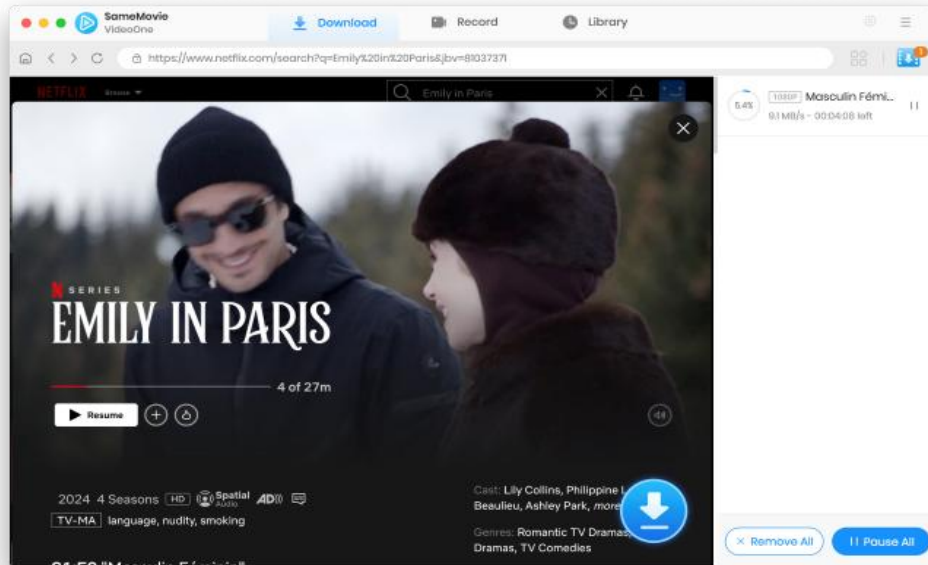

When downloading a TV show, you can choose episodes and seasons first, then hit the **"Advanced Download"** option at the bottom left of the pop-up. You can then choose the video quality, bit rate, language of audio tracks, and subtitles. When downloading movies, you can access the options window directly.
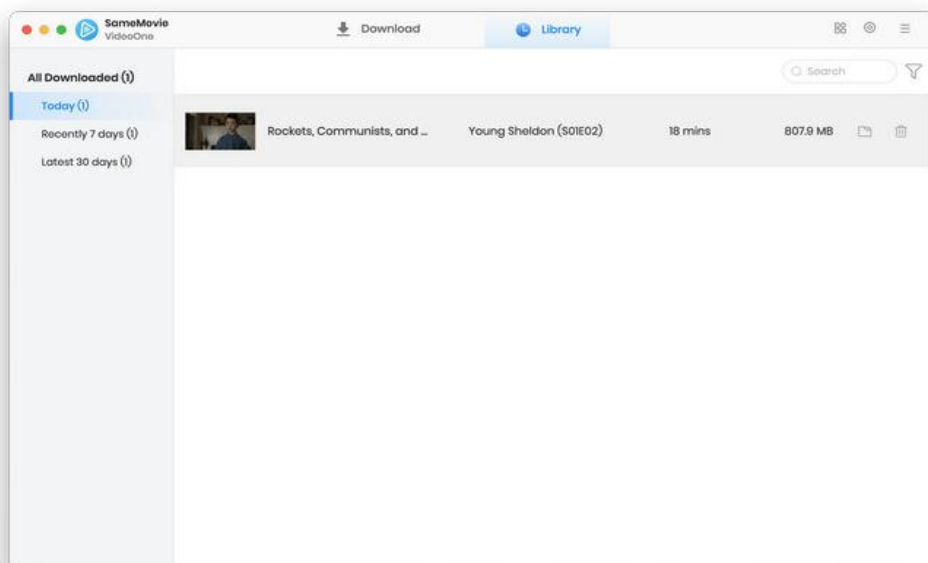

Step 6: Download Video Locally

The final step is to hit the **"Download"** button. All download processes automatically appear in the right status bar. While waiting, you can go back to Netflix to browse videos or continue adding downloaded videos. You'll be prompted when downloading successfully.

Step 7: Check Download History

Library records all the videos you've downloaded based on when they were downloaded. If you want to access the path where the file is located, mouse over the video and click on the folder symbol on the right.
