Step 1: Log in to Paramount+ Account

Run SameMovie ParamountPlus Downloader on your Mac, click the "Sign in" button to visit the Account sign in page. Enter your email address and password to complete your login.

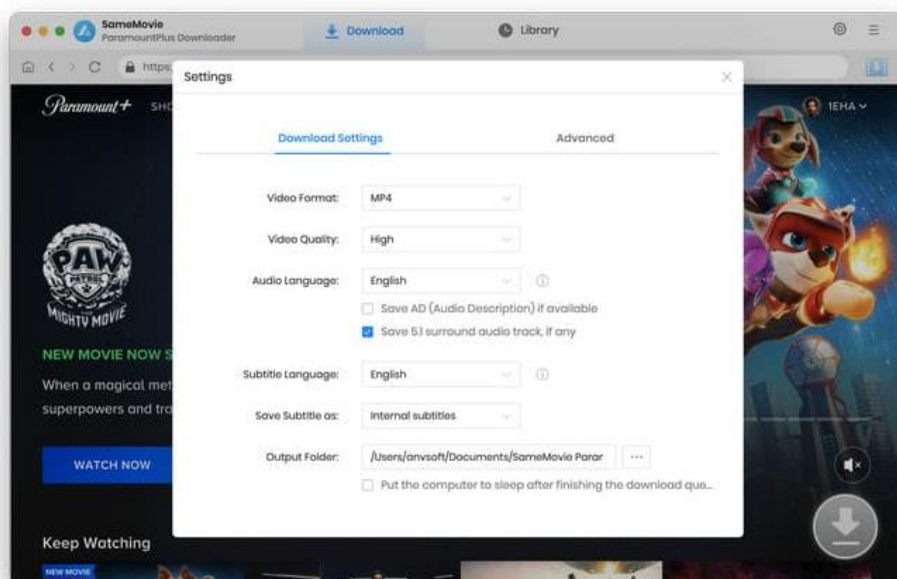

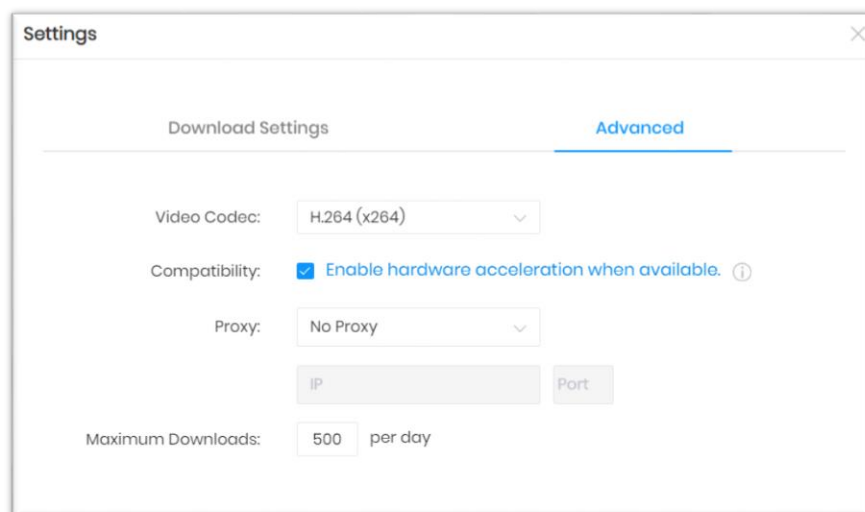

.

Step 2: Customize the Output Settings

Click the **Setting** icon to choose the output settings for your video. You can choose the video format (MP4 or MKV), video quality (Low, Medium, High), the language of audio track and subtitle, the output path, and more. SameMovie offers three subtitles types for you to choose from:

● Internal subtitles: can save subtitles in multiple languages.

● External subtitles: can save subtitles as independent files, SRT file, so that you can edit them.

● Hardcode subtitles: can be permanently embedded into the video and subtitles are always available.

In the "Advanced" tab, it is available to choose H.265 and H.264 video codec option. When selecting the H.265 video code, you can save the video with smaller files when downloading the same definition video. You can also enable hardware acceleration, if available, to improve download performance by using the graphics card.
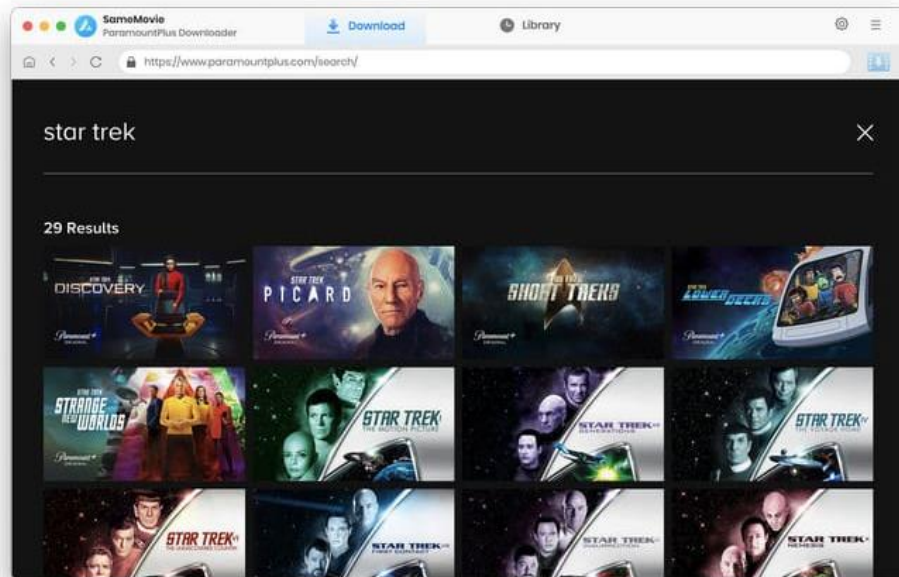

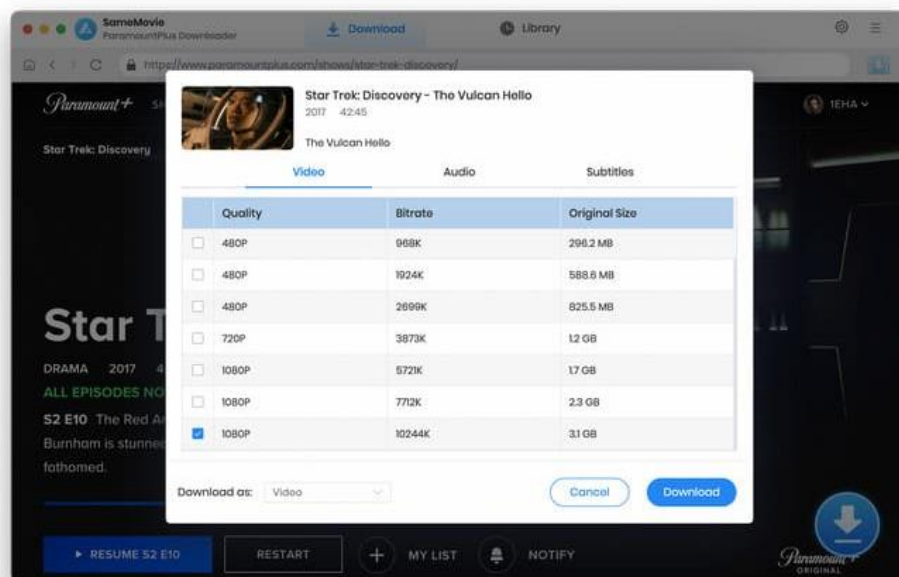

Step 3: Search for Paramount+ Video

Browse Paramount+ library content to find the video you want to download or just click the magnifying glass button for a name or keyword search.

Step 4: Select Audio Track and Subtitle

The Download icon will appear in the lower right corner of the screen when you click on the preferred video. For a given video, you can also select the specific audio tracks, subtitles, and output resolution.
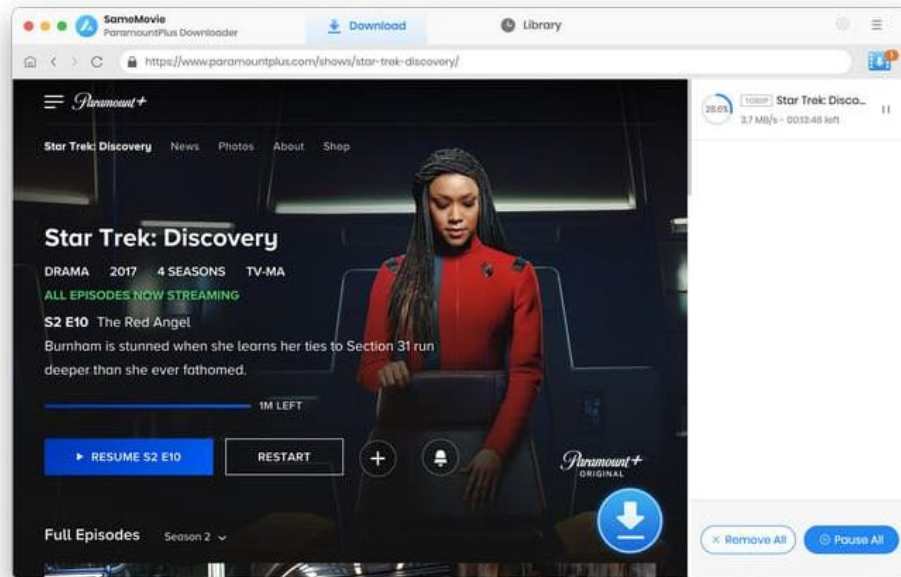

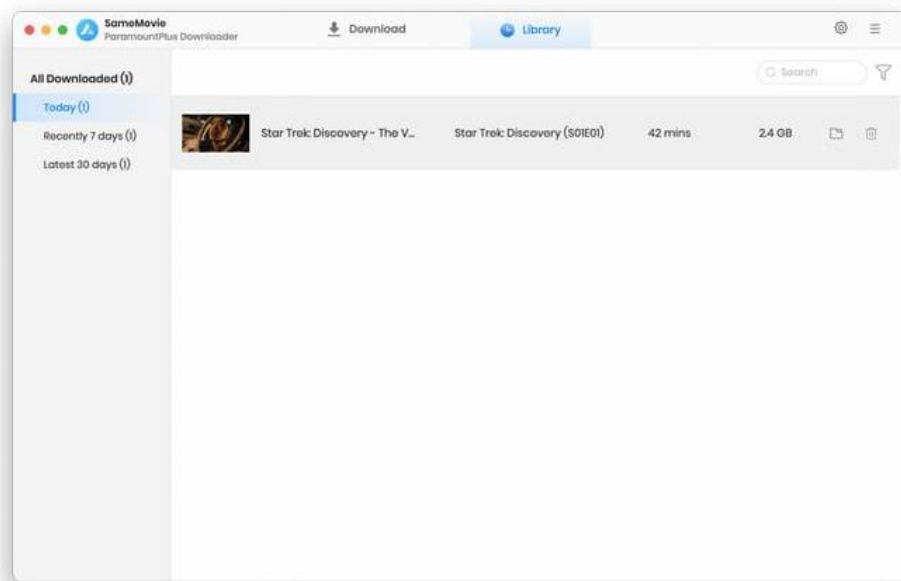

Step 5: Download Paramount+ Video

Now, it's time to download your video. Just click the "Download" button and the video will download with super fast speed.

Step 6: Check Download History

Once the videos are downloaded, go to "Library" tab to find the downloaded videos from the local drive.
